

Resetting your Glue Up password in MyGlue

If you wish to reset your Glue Up password, first, make sure you are logged in to your Glue Up account. You can use a [temporary passcode](#) to log in. Once you are logged in, in the Settings section, select [Change Password](#). If you do not remember your current password, click on “**Forgot Password?**” and follow the instructions to set up a new one.

The screenshot displays the 'Change Password' page in the MyGlue interface. On the left, a sidebar menu is visible with the following items: 'My Profile' (bolded), 'My Profile', 'Memberships', 'Business cards', 'My Accreditation', 'Account Linking' (with a 'New' tag), and a horizontal separator. Under 'My Settings', there are links for 'General Settings', 'Fapiao Information', 'Billing Information', 'Notification Settings', 'Email Addresses', and 'Change Password' (highlighted in blue). The main content area on the right features three password input fields, each with a clear icon (an 'X' in a circle). The first field is labeled 'Type your current password' and has a 'Forgot password?' link below it. The second field is labeled 'Enter new password' and the third is labeled 'Retype your new password'. At the bottom of the form is a prominent blue button labeled 'CHANGE PASSWORD'.
