

Dear Member

Comprehensive career protection – free for the year

We are delighted to let you know that your Dental Protection membership for the coming year is free of charge. Your membership will automatically renew so you don't have to do anything unless you need to update any personal details.

Your state indemnity provides protection against claims arising from your professional practice. However, we believe that healthcare professionals should not have to live in fear of litigation, to support this belief our guiding principle means we provide protection that goes beyond just patient claims.

As a member you can request advice and legal representation for HPCSA investigations, inquests and disciplinary matters, and criminal proceedings related to your clinical practice.

You can also access confidential counselling which includes support for work-related stress that may impact your practice like burnout, anxiety and conflict.

I look forward to welcoming you to another year of membership with Dental Protection.

Yours sincerely

Raj Rattan
Dental Director
